

-Change Starts Here- Four Edge Cutting Machine

Sheet Cutter SC-400T

Subsidy Program for New Business Project in Shiga Prefecture (2013)

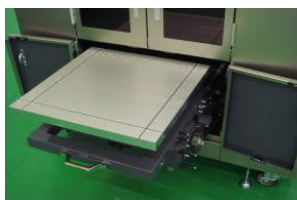

Features

- One high-precision cutting technique for all resin sheets ($\pm 0.5\text{mm}$)
- Clean environment & quiet operation by the "Ku-chu" cutting method
- Available with four edge cutting capability in an efficient and effective manner
- Tear notch cutting function

- Looking for an adhesive/elastic resin sheets cutting product?
- Want to create a dust free environment?
- Planning to improve production efficiency through high-precision cutting performance?
- Increasing flexible control for different size sheet processing?

SC-400T SPEC Flexible Ordering System

Dimensions (W*L*H)	1300*900*1300mm
Weight (kg)	800kg (wheel casters included)
Cuttible Width (mm)	□500mm
Cutting Precision	$\pm 0.5\text{mm}$
Power	AC100V Circuit breaker capacity 30A
Air Pressure	0.5MPa

Bring your own cutting sheets to testify SC-400T

Examples

- Resin sheets cutting process of solar panel manufacturing
- Wrapping/Packing sheets production process
- Resin sheets cutting operation of IT equipment production
